

General Notice – Change Notification

From: Northeast Laboratory Services, Media Manufacturing Quality Assurance Department

Notice Date: 2022-09-15

Dear Valued Customer:

Northeast Laboratory Services (NEL) is sending this notification to alert you regarding a change in approved vendors for product labelling. NEL has changed approved vendors from New England Label to Weber Packaging Solutions. This will impact the labels used in products that NEL provides to its customers.

In addition to the approved vendor change, the material composition of the label has also changed from a paper-based material to a polyethylene material referred to as Ultraplate PET. This material is more durable and water resistant and is expected to perform in the same manner as the previous label used.

These changes will not impact labels supplied to NEL by customers for proprietary products.

If you have any questions or concerns regarding these changes, please reach out to your Customer Service Representative or a member of the Quality Assurance team.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jessica Hamilton', is positioned above a blue horizontal line.
