

General Notification Raw Material Change

From: Northeast Laboratory Services, Quality Department

Date: 2020-01-15

To whom it may concern:

Northeast Laboratory Services (NEL) is notifying customers of a raw material change for certain products. Due to discontinuation from our primary vendor, NEL is changing suppliers for products manufactured with Cooked Meat Medium. NEL validated the new the medium to ensure we continue to provide the highest quality product to our customers. The following products are affected by this change:

T1300 Cooked Meat Medium – 10mL

T1350 Cooked Meat Medium with Glucose, Hemin and Vitamin K – 10mL

B1189 Cooked Meat Medium with Glucose, Hemin and Vitamin K – 50mL

Due to change in suppliers, the appearance of the medium has changed. The release specifications for all products will not change, and media will be required to meet these specifications prior to release for sale.

If you have any questions, please reach out to your Customer Service Representative or our Quality Team. NEL always strives to provide the highest quality product to our customers, and this change will not affect the integrity of the final product.

Sincerely,

A handwritten signature in black ink, appearing to read 'Abby Tripp', with a stylized flourish at the end.
